

## *The Black Violins Concert*

*I loved you guys. You played so cool and just made me feel so excited when you played. I felt so bored when we got there because I thought it was going to be a slow calm concert. But when you got up there and started playing I felt the excitement in your playing. I am one of the "most quit kids in my grade but after I heard your music I wanted to get up and just dance.*

*First when you guys started playing "thinking out loud I felt the beat in my legs and just wanted to dance. When you first got out there on the stage I knew it was going to be an exciting concert. You made me feel so excited when you started playing I hope I hear you guys more often. You kind of sound like a rock band but with violins. I love the way it sounded that I started to sing along with you guys when I heard it was the music that came from the song Thinking out loud!!!!*
